

ProDip® TD Teat Dip

Fast, Effective and Safe

**MAKES
HEALTHIER
COWS**

Advanced BioCatalytics Corporation

ProDip® TD Teat Dip

Fast, Effective and Safe

Use for Pre and Post Dip

Simplifies inventory and operating procedures

- The lowest rates of mastitis
- Reduced somatic cell counts
- Fast acting - reduces manual cleaning time
- Removes contaminants deep in skin pores that harbor bacteria and affect milk quality
- Improved skin condition leads to healthier cows
- Manufactured in ISO 9001 registered facility

Superior anti-microbial efficacy

30 second exposure, over 99.999% pathogen kill, with 1% milk loading*

Escherichia coli / Enterobacter aerogenes / Pseudomonas aeruginosa / Salmonella enterica / Staphylococcus aureus

*Tests conducted at an independent, GLP rated laboratory.

**DOES NOT
CONTAIN**

Iodine, quaternary ammonium salts, chlorine, hypochlorite, chlorine dioxide, chlorite, chlorhexidine

ProDip® TD is based on a patented technology that uses:

- an innovative formula
- gentle surfactants with natural cleaning boosters
- hydrogen peroxide (0.6% RTU) is added for synergistic effect
- optimal blend of skin conditioning emollients
- exclusively available from authorized distributors of Advanced BioCatalytics
